

Muse™ iQ

*Wireless hearing
solutions made for life*

Say hello to the smartest hearing solution

*At Starkey®, we believe the
better you hear, the better
your quality of life.*

Muse iQ is our most advanced hearing technology. It delivers supreme sound quality that allows you to be immersed in the world around you like never before. It's designed to meet your unique hearing needs, and keep you connected to the people and things you love. And Muse™ iQ is available with the convenience of the industry's smartest rechargeable solution.

*Starkey Sound™ uses cutting-
edge technology to deliver
true listening enjoyment.*

Muse iQ

Say hello to personalised hearing

Our latest Muse iQ hearing aids and our easy-to-use SurfLink accessories deliver the most personalised hearing experience ever, and are designed to:

- Provide natural hearing and effortless transitions as you go about your day
- Deliver pristine audio and exceptional listening clarity
- Give you an easy way to recharge your hearing aids anytime, anywhere
- Preserve peace and quiet while amplifying the important things
- Help you better understand conversations and hear comfortably
- Stream TV, phone calls, music and more to your hearing aids

iQ

Muse iQ hearing aids help you adjust to your surroundings quickly so you can begin to experience life to its fullest.

Say hello to everything you want in a hearing solution

We've reimagined rechargeable. Our new best-in-class Muse iQ Rechargeable hearing aids last 20 percent longer than other systems, are 30 percent smaller and are 100 percent easy to use. Plus, with the industry's longest lasting charge, your hearing aids will always be ready to go.

Our best hearing technology just got better.

- **Immersive sound** for true listening enjoyment
- **Longest lasting charge** delivers over 30 hours of superior hearing
- **All-in-one charger** holds enough charge to provide portable charging without plugging in to the wall
- **Smallest rechargeable** hearing aid available today

Say hello to convenient connectivity

With more and more wireless products on the market, making connections between devices can be challenging. To navigate listening environments with high wireless traffic, our 900sync™ technology provides a powerful solution. Its high bit-rate streaming allows for ear-to-ear phone streaming and wireless capabilities for single-sided hearing loss.

SURFLINK™

Our Starkey wireless hearing aids wouldn't be complete without our popular SurfLink accessories.

Our compact mobile phone transmitter, **SurfLink™ Mobile 2**, is an assistive listening device, media streamer and hearing aid remote all rolled into one.

SurfLink Mini Mobile is a small and simple mobile phone streaming solution. With this device, you can connect any Bluetooth®-ready device to your Muse iQ hearing aids.

SurfLink Media 2 is a set-and-forget media streaming solution that connects to TVs, MP3 players and more, to wirelessly stream audio directly to your hearing aids.

Our **SurfLink Remote** can be used to adjust volume, change memory modes, go in and out of streaming mode and much more — all with the push of a button.

Our discreet, lightweight **SurfLink Remote Microphone 2** is worn by a conversation partner to aid patients in one-on-one conversations in difficult listening environments.

Say hello to the true sound of music

Tastes in music may be unique, but the power of music is universally understood.

Thanks to the processing power in Muse iQ hearing aids, you can enjoy your favourite music in a whole new way with features that:

- Focus on music audibility, desired loudness and sound quality
- Make soft music sounds audible
- Allow on-demand and automatic control

The result is listening enjoyment for the way you want to hear music — automatically and in your control.

Say hello to a solution for every type of hearing loss

If you have single-sided hearing loss, Muse iQ has a solution for your hearing needs.

Our wireless **CROS** and **BiCROS** hearing aids bring audibility and speech understanding to those who struggle with **single-sided hearing loss**. 900sync technology allows streaming to the good ear to provide quality, clarity and consistency of sound.

Starkey offers the first rechargeable hearing aid for single-sided hearing loss.

Say hello to the very best

You want

*To hear comfortably in
challenging environments*

*A rechargeable
hearing aid solution*

*Better wireless
streaming*

*A comfortable, personalised
listening experience*

No buzzing or whistling

*Durable, dependable
hearing aids*

*Music the way it was
meant to be heard*

Customisable tinnitus relief

Muse iQ delivers

Acuity™ Immersion Directionality, designed to restore natural benefits provided by the ear and improve speech audibility in difficult listening situations.

A rechargeable option that delivers continuous, stable power to ensure your hearing aids are always ready for use.*

Technology that provides consistent wireless performance while streaming mobile phones, TV, music and other media with **SurfLink Mobile 2**, **SurfLink Mini Mobile** and other **SurfLink** accessories.

Capabilities that speed your transition to hearing aids with gradual adjustments, distortion-free listening in noise, and ultimate clarity for soft sounds.

Starkey's best-in-class feedback cancellation system providing feedback-free, comfortable listening all-day long.

Surface™ NanoShield, our pioneering water, wax and moisture repellent system, to protect and ensure durability and dependability.

A design that allows you to experience music in a whole new way. Now you can hear every note the way the artist intended — with pure, refined sound quality.

Advanced **Multiflex Tinnitus Technology** integrated into Muse iQ to bring relief to those who suffer from ringing in the ears.

Say hello to better hearing everywhere you are

From the beginning, our hearing solutions have enabled people to hear better in challenging environments and live a better life.

You want to hear all the subtleties of life: the inflection in the voice of a spouse or the nuances in the notes of a favourite song. Whether it's one-on-one or in the most crowded places, you'll hear the world around you.

What you need will depend on how busy and active you are, and what types of environments you frequent.

What is your hearing lifestyle?

Our lineup of products enhances many different listening environments. Talk to your hearing professional about which options fit your lifestyle best.

Compare the listening environments on the chart inside.

Say hello to a happier, healthier life

Hearing loss isn't just an ear issue,
it's a quality of life and health issue.

It can occur for natural reasons, but
other causes might surprise you.

Older adults*

with impaired hearing may have a
shorter lifespan than their peers
without hearing problems.¹

*70 years and older

People* with a hearing loss experience a
30-40% faster decline in cognitive abilities
compared to peers without hearing loss.²

*75 years and older

People with low-frequency
hearing loss are considered **at risk**
for cardiovascular events.³

Muse iQ hearing aids are made so people
with hearing loss won't have to miss a single
sound that brings them joy. They are made
knowing people who hear better, live better.

Adults with untreated hearing loss

were more likely to report
depression, anxiety and
paranoia than peers who
wore hearing aids.⁴

*50 years and older

Adults with untreated hearing loss
are more likely to develop dementia.⁶

There is a significant
association between
**high blood
pressure**
and untreated
hearing loss.⁷

People with
mild hearing loss
**are 3x
more likely**
to have a history
of falling.⁸

90-95%

of people with **hearing loss can
be treated** with hearing aids.⁹

*Simply put, Muse iQ hearing
aids are made for the speed of life.*

Made so
the world
may hear

*Our Founder and CEO,
William F. Austin, has
always held a strong
belief that the gift of
better hearing results
in a fuller and richer life.*

We prove our dedication to this philosophy daily, through our support of Starkey Hearing Foundation.

The gift of hearing opens up new worlds of opportunity. It connects individuals to life and helps them realise they can accomplish more than they ever thought possible. Starkey Hearing Foundation uses hearing as a vehicle to change lives around the world.

Made to help millions.

100+
COUNTRIES

**MORE THAN
1 MILLION
PEOPLE IN NEED
SERVED**

**COUNTLESS
LIVES CHANGED**

Spread hope from ear to ear. To learn more or give the gift of hearing, visit StarkeyHearingFoundation.org.
